# Department of Defense Human Factors Engineering Technical Advisory Group Meeting 52

## Human Systems Integration

1-4 November 2004

Holiday Inn Select  
480 King Street  
Alexandria, VA 22314

## Theme

### HUMAN SYSTEM INTEGRATION

In order to comply with new Department of Defense acquisition guidance issued on 12 May 2003, (e.g., DODD 5000.1 and DODI 5000.2), service program managers are required to implement Human Systems Integration on major acquisition programs. Enclosure (7) to DODI 5000.2 specifically charges program managers with having a comprehensive plan for HSI in place early in the acquisition process. This plan is to address manpower, personnel, training, human factors engineering, environment/safety/occupational health, personnel survivability and habitability. The 52nd DoD Human Factors Engi-

neering Technical Advisory Group meeting, to be held in the Washington, D.C. area, will focus on what the military services are doing to implement the current DoD Human Systems Integration policy. Specifically, representatives from DDR&E and each of the services will highlight their HSI policies, practices, regulations and initiatives intended to fully implement the intent of this new HSI mandate.

### Program Summary

Detailed program information will be available on the TAG's web site. Please check the web site periodically for updates.

## Attendance Policies

Attendance at the DoD HFE TAG is open to:

- US Military/Government Employees
- National Laboratory or Federally contracted research center employees
- Official technical society/ industrial association representatives
- Specifically invited plenary presenters/guests
- Students majoring in human factors or related disciplines

All others must have an invitation to attend the meeting.
